Summary

AI/ML-focused software developer with strong Python and full-stack experience. Delivered production-ready applications and managed real clients as a freelance developer. Proven leadership in technical and outdoor environments. Skilled in translating ideas into scalable, user-centric solutions.

Key Highlights

- **Hands-on Full-Stack Developer** experienced in building and deploying production-ready applications.
- **Freelance Developer for a Karate Academy** — built a complete website and managed client requirements end-to-end.
- **Leadership Experience** — Trek Lead (Sahyadri Sanchari), Major Project Lead, Football Team Captain.
- **Python Backend & AI/ML Exposure** — APIs, automation, OCR modules, and foundational ML workflows.

Projects

- AI-Powered Health & Medication System** | *Full-Stack + AI/ML* (Github Read) 2025
- Built a platform for storing medical records, tracking medicines, and managing appointments.
 - Created Python OCR (FastAPI) for extracting medicines from prescriptions and triggering reminders.
 - Tech Stack: React, Node, Express, MongoDB, Python (OCR), JWT
- Blockchain Transparent Donation Platform** | *Full-Stack + Web3* (Github Read) 2025
- Developed a donation system with blockchain-verified Cardano transaction hashes.
 - Built NGO dashboards, donor verification, and IPFS-based proof-upload system.
 - Tech Stack: React, Node, PostgreSQL, MeshJS, Cardano, IPFS
- AI Personal Finance Assistant** | *ML + Full-Stack* (Github Read) 2025
- Created an AI assistant for expense analysis, predictions, and auto-categorization.
 - Integrated Python ML microservice with a secure full-stack dashboard.
 - Tech Stack: Python (ML), FastAPI, React, Node, PostgreSQL
